SPECIAL SERVICES

Rapid Access®

Utilize self-referral or obtain direct referrals to specialists with this service. You can directly contact a specialist affiliated with your physician group for consultation or evaluation. (Your physician group must still authorize any procedures the specialist may recommend.) With direct referral, your primary care physician can refer you directly without prior authorization from your physician group.

As of this publication, 49 specialties are represented in the Rapid Access program. Not all physician groups offer access to the same specialties, so check the participating physician group index or call a specific physician group for a listing of specialists available.

Special note regarding Obstetrics/Gynecology:

Member self-referral to an OB/GYN is available at all of Health Net's contracting physician groups.

Note: Members may self-refer for an annual exam, but only to an OB/GYN in their assigned physician group.

Outpatient Surgical Facility

Utilizing outpatient surgical facilities is a safe and cost-effective approach to outpatient surgery performed in a hospital. The choice to use an outpatient surgical facility begins with a thorough physical examination, completion of necessary laboratory tests, and a consultation with your doctor to discuss any related risks. Based on the doctor's discussion with the patient, he or she will select the optimal procedure, anesthesia and choice of facility in which to perform the procedure. Since overnight stays are not permitted at this type of facility, postoperative recovery is done at home. Depending on the procedure, patients should have a responsible adult available to drive them home and assist them with recovery for approximately 24-48 hours.

seleccione distintos médicos para otros miembros de su familia) en los espacios correspondientes que aparecen en el formulario de inscripción. Cuando esté lleno, entrégueselo a su empleador.

Antes de entregar su formulario de inscripción, verifique la afiliación y ubicación del grupo médico y confirme que son convenientes para usted. Para asegurarse de que tiene acceso razonable a la atención, debe vivir o trabajar dentro de 30 millas del consultorio del médico que eligió.

FREQUENTLY ASKED QUESTIONS

What is a participating physician group?

A participating physician group is a team of physicians from various specialties assisted by nurses, technicians and other health care professionals contracted with Health Net to perform services for Health Net members.

You may notice that some of our physician group listings include the words “Medical Group,” “PMG,” “Independent Physicians Association” or “IPA” in the physician name. Typically, in the physician groups that include the term medical group or PMG, most of the primary care physicians have their offices at one principal location. In an IPA, the primary care physicians typically practice at different locations.

What is an affiliate office and how does it affect my selection of a Primary Care Physician?

Affiliate office locations often have limited physician availability and different office hours. It’s also possible that your doctor offers office hours in more than one location. Affiliates will often refer patients to the primary location of a physician group for laboratory and urgent care services.

Managed Health Network (MHN, por sus siglas en inglés)

No todos los afiliados a Health Net tienen acceso a los médicos que se indican en este directorio. Revise el Resumen de Beneficios o llame a nuestro Centro de Comunicación con el Cliente para determinar si existe una red de proveedores específicos para que use. PREGUNTAS FRECUENTES

¿Qué es un grupo médico participante?

Un grupo médico participante es un equipo de médicos de varias especialidades apoyado por enfermeras, técnicos y otros profesionales para el cuidado de la salud contratados por Health Net para brindar servicios a los afiliados a Health Net.

Usted puede observar que algunas de nuestras listas de grupos médicos incluyen las palabras “Grupo Médico”, “PMG”, “Asociación de Médicos Independientes” o “IPA” en el nombre del médico. Normalmente, en los grupos médicos contratados que incluyen el término “grupo médico” o PMG en su nombre, la mayoría de los médicos de atención primaria tienen sus consultorios en una ubicación principal. En una IPA, los médicos de atención primaria generalmente ejercen en distintas ubicaciones.

¿Qué es un consultorio afiliado y de qué manera afecta mi selección de un Médico de Atención Primaria?

Generalmente las ubicaciones de los consultorios afiliados han limitado la disponibilidad de los médicos y de los distintos horarios de atención. También es posible que su médico ofrezca horarios de atención en más de una ubicación. Los afiliados generalmente referirán a los pacientes a la ubicación primaria del grupo médico para los servicios de laboratorio y de atención de urgencias.

How is a referral specialist different from a primary care physician?

Your primary care physician is your main medical provider. He or she is the doctor who is responsible for coordinating all of your medical care and authorizing all specialized treatment or hospitalization. As a member of Health Net, you must obtain a referral from your primary care physician to see a specialist. Referral specialists are not available for selection as your primary care physician.

What's the difference between emergency care and urgent care?

Emergency care is for a sudden, serious and unexpected illness, injury or condition including severe pain that a reasonable person with an average knowledge of health and medicine would believe requires immediate medical attention. Health Net covers care received from any licensed provider or treatment center anywhere in the world for an emergency situation.

Urgent care is provided for medical conditions that require treatment within several days but are not considered immediately life threatening. These may include sprains and fractures, a sudden high fever or pneumonia, or a flare-up of a chronic condition such as asthma. Situations requiring urgent care are covered when received from the member's primary care physician and physician group while in the group's service area, and from any licensed provider or treatment center while out-of-area. All non-emergency care must be provided by or through the member's primary care physician and physician group.

What is an Outpatient Surgical Facility?

An Outpatient Surgical Facility is a setting other than a medical or dental office, whose main function is performing surgical procedures on an outpatient basis. It must be licensed as an outpatient clinic according to state and local laws and must meet all requirements of an outpatient clinic providing surgical services. The patient is admitted to and discharged from the facility within the same working day. Overnight stays are not permitted.

¿En qué se diferencia un especialista de referencia de un médico de atención primaria?

Su médico de atención primaria es su proveedor médico principal. Él o ella es responsable por la coordinación de toda la atención médica y por la autorización de todos los tratamientos especializados y de las hospitalizaciones. Como afiliado a Health Net, debe obtener una referencia de su médico de atención primaria para consultar a un especialista. Los especialistas de referencia no pueden ser su médico de atención primaria.

¿Cuál es la diferencia entre la atención de emergencia y la atención de urgencia?

La atención de emergencia es por una enfermedad, lesión o condición repentina, grave e inesperada, que incluye dolor fuerte, que una persona razonable, con un conocimiento promedio de salud y medicina creería que requiere de atención inmediata. Health Net cubre la atención recibida de un proveedor o centro de tratamiento autorizado en cualquier lugar del mundo, en caso de una situación de emergencia.

La atención de urgencia se brinda por condiciones médicas que requieren tratamiento dentro de varios días, pero no se considera que pongan en riesgo la vida de inmediato. Éstas pueden incluir esguinces y fracturas, fiebre alta repentina o pulmonía, o un ataque de una condición crónica, como el asma. Las situaciones que requieren atención de urgencia están cubiertas cuando los servicios son prestados por el médico de atención primaria y grupo médico en el área de servicio del grupo y por cualquier proveedor o centro de tratamiento autorizado si se encuentra fuera del área. El médico de atención primaria y grupo médico del afiliado son quienes deben brindar la atención cuando ésta no sea de emergencia.

¿Qué es un Centro Quirúrgico para Pacientes Ambulatorios?

Un Centro Quirúrgico Ambulatorio es una instalación distinta a un consultorio médico o dental, cuya principal función es llevar a cabo procedimientos quirúrgicos de manera ambulatoria. Debe contar con una licencia como clínica ambulatoria en conformidad con las leyes locales y estatales y debe cumplir todos los requisitos de una clínica ambulatoria que proporciona servicios quirúrgicos. Se ingresa y da el alta al paciente del centro dentro del mismo día hábil. No se permite pasar la noche en el lugar.

Am I allowed to change to a new doctor once I enroll?

You may switch to another primary care physician in the same physician group at any time, for any reason by calling Health Net at **1-800-522-0088** (Large Group) or **1-800-361-3366** or going online to www.healthnet.com. If you want to select a new primary care physician affiliated with a different group, you can make the change on a monthly basis. If you choose a new doctor and physician group before the 15th of the month, you can begin seeing the new doctor anytime after the 1st of the next month. If you choose a new doctor after the 15th, you'll need to wait as long as six weeks (the first of the month after one full month has gone by after making the change) before you can begin seeing the new doctor.

How can I obtain information on doctors who are in the Health Net network?

Information is available in our directories, on our web site, or by calling the Health Net Customer Contact Center. You can learn whether your doctor is board certified, where he or she attended medical school and performed the residency, the office address and phone number, whether your doctor participates in a Health Net HMO or PPO, the hospital(s) at which your doctor practices, and which languages (in addition to English) that your doctor may speak.

Where can I find specialist listings?

Use the "Provider Search" function on Health Net's website at www.healthnet.com or call Member Services at the toll-free number listed on your Health Net ID card or ask your Health Net contracted physician or physician group.

¿Puedo cambiar de médico una vez que me inscribo?

Usted puede cambiarse a otro médico de atención primaria en el mismo grupo médico en cualquier momento y por cualquier motivo llamando a Health Net al **1-800-522-0088** ó **1-800-361-3366** (Grupos Pequeños) al a través de Internet en www.healthnet.com/español. Si elige un nuevo médico después del día 15, deberá esperar seis semanas (el primer día del mes siguiente a un mes completo después de haber hecho el cambio) antes de poder comenzar a consultar al nuevo médico.

¿Cómo puedo obtener información sobre médicos que están en la red de Health Net?

La información se encuentra disponible en nuestros directorios, o en nuestro sitio Web, o se puede obtener llamando al Centro de Comunicación con el Cliente. Puede obtener información sobre si su médico está certificado por el consejo, dónde asistió a la escuela de medicina, dónde realizó su residencia, el domicilio y el número de teléfono de su consultorio, si su médico participa en un contrato HMO o PPO de Health Net, el o los hospitales en los que ejerce y qué idiomas (además del inglés) puede hablar.

GLOSSARY OF TERMS

Affiliate/satellite offices: While all physician groups offer a primary location, some groups provide the communities they serve with alternate affiliate or satellite locations. Compared to a physician group's primary location, affiliate locations typically offer only limited physician availability and office hours. In addition, physicians in affiliate locations will often refer patients to the primary location of the physician group for laboratory and urgent care services.

Authorization: If you need a special type of care, your doctor will refer you to a specialist. If your doctor's request for referral is approved by your physician group, you will be given a form called an Authorization for Consultant's Services. This form lists the type of care or services that you need and the number of visits that you can schedule. Always check with your primary care physician to make sure all your visits to a specialist are covered by Health Net.

Direct referral: With direct referral, your primary care physician can refer you directly to a specialist for consultation and evaluation without prior authorization by your physician group.

Emergency care: You need emergency care for a sudden, serious and unexpected illness, injury or condition, including severe pain that a reasonable person with an average knowledge of health and medicine would believe requires immediate medical attention.

Outpatient Surgical Facility: An Outpatient Surgical Facility is a setting other than a medical or dental office, whose main function is performing surgical procedures on an outpatient basis. It must be licensed as an outpatient clinic according to state and local laws and must meet all requirements of an outpatient clinic providing surgical services.

GLOSARIO DE TÉRMINOS

Consultorios afiliados/sucursales: Si bien todos los grupos médicos ofrecen una ubicación primaria, algunos grupos brindan a las comunidades en las que prestan servicio ubicaciones afiliadas alternativas o sucursales. En comparación con la ubicación primaria de un grupo médico, las ubicaciones afiliadas generalmente ofrecen sólo disponibilidad médica y horarios de atención limitados. Además, los médicos que se encuentran en las ubicaciones afiliadas, generalmente remitirán a los pacientes a la ubicación primaria del CPG para los servicios de laboratorio y de atención de urgencias.

Autorización: Si usted necesita un tipo especial de atención, su médico le remitirá a un especialista. Si su grupo médico aprueba la solicitud de referencia de su médico, se le entregará un formulario llamado Autorización para Servicios de Especialista. Este formulario enumera el tipo de atención o de servicios que usted necesita y la cantidad de consultas que usted puede programar. Consulte siempre con su médico de atención primaria para asegurarse que todas sus consultas con el especialista estén cubiertas por Health Net.

Referencia directa: Con una referencia directa, su médico de atención primaria puede referirlo directamente a un especialista para consulta y evaluación sin la autorización previa de su grupo médico.

Atención de emergencia: Usted necesita atención de emergencia para una enfermedad, lesión o condición repentina, grave e inesperada, que incluye dolor fuerte, que una persona razonable, con un conocimiento promedio de salud y medicina creería que requiere de atención médica inmediata.

Centro Quirúrgico Ambulatorio: Un Centro Quirúrgico Ambulatorio es una instalación distinta a un consultorio médico o dental, cuya principal función es llevar a cabo procedimientos quirúrgicos de manera ambulatoria. Debe contar con una licencia como clínica ambulatoria en conformidad con las leyes locales y estatales y debe cumplir todos los requisitos de una clínica ambulatoria que proporciona servicios quirúrgicos.

Participating physician group: A participating physician group is a team of physicians from various specialties assisted by nurses, technicians and other health care professionals affiliated contractually with Health Net.

Primary Care Physician: The physician at your physician group who is responsible for performing, prescribing, directing or authorizing all of your health care, including routine, referral and follow-up treatment. If you need a special type of care, your primary care physician will be responsible for referring you to an outside specialist.

Provider: This term applies primarily to any facility, physician or other health care professional contracted with Health Net to provide care to members on a preauthorized or contractual basis.

Rapid Access: Rapid Access is a service provided by many of Health Net's physician groups. It indicates whether the physician group offers self-referral or direct referral to specialists.

Referral: See authorization, direct referral or self referral. Referral specialist: Your primary care physician is responsible for administering your care, and he or she will authorize a referral to an appropriate specialist when necessary. Referral specialists may be either staff or members of the specialty referral panel of your physician group. You may not select a referral specialist physician as your primary care physician.

Self-referral: With self-referral, you can contact a specialist affiliated with your physician group directly for a consultation or evaluation. Your physician group must still authorize any procedures the specialist may recommend.

Urgent care: When conditions require treatment within several days but are not considered immediately life threatening, they require urgent care. Examples of urgent medical conditions are sprains and fractures. If your primary care physician is not available to see you on a same-day basis, you will be referred to a facility where you can receive the care you need. Many physician groups offer urgent care at the primary location.

Grupo médico participante: Un grupo médico participante es un equipo de médicos de varias especialidades apoyado por enfermeras, técnicos y otros profesionales para el cuidado de la salud contratados por Health Net.

Médico de Atención primaria: Es el médico dentro de su CPG que es responsable de realizar, recetar, indicar o autorizar toda su atención de la salud, incluyendo los tratamientos de rutina, de referencia y de seguimiento. Si usted necesita un tipo especial de atención, su médico de atención primaria será responsable de su referencia a un especialista externo.

Proveedor: Este término se aplica principalmente a cualquier centro de salud, médico u otro profesional para el cuidado de la salud contratado por Health Net, que brinda atención a los afiliados mediante autorizaciones previas o por medio de contratos.

Rapid Access: Rapid Access es un servicio proporcionado por muchos grupos médicos de Health Net. Indica si el grupo médico ofrece auto referencias o referencias directas a los especialistas.

Referencia: Consulte la autorización, referencia directa o auto referencia. Especialista de referencia: Su médico de atención primaria es responsable de administrar su atención, además de autorizar una referencia a un especialista adecuado, cuando sea necesario. Los especialistas de referencia pueden ser miembros del personal o miembros del panel de referencia a especialidades de su CPG. No puede seleccionar a un médico especialista de referencia como su médico de atención primaria.

Auto referencia: Con la auto referencia, usted puede comunicarse con un especialista afiliado a su grupo médico directamente para una consulta o evaluación. Su grupo médico aún debe autorizar cualquier procedimiento que el especialista pudiese recomendarle.

Atención de urgencia: Cuando las condiciones requieren tratamiento dentro de varios días pero las mismas no son consideradas como inmediatamente riesgosas para la vida, dichas condiciones requieren atención de urgencia. Los esguinces y las fracturas son ejemplos de condiciones médicas de urgencia. Si su médico de atención primaria no se encuentra disponible para atenderlo el mismo día, usted será referido a un centro de salud donde pueda recibir la atención que necesita. Muchos CPG ofrecen atención de urgencia en la ubicación primaria.

Note: UC Irvine physicians are not listed in our online provider search tool as they are only available to UC members.
